**React Native / Frontend Developer | 3+ Years Experience**

**Work Rights: Full-time work rights — Post-Study Work Visa (valid until 2028)**

## PROFESSIONAL SUMMARY

---

React Native / Frontend Developer with 3+ years of experience building and maintaining production-ready mobile and web applications using **React Native, React.js, and TypeScript**. Strong background in **component-driven UI development, API integration, performance optimisation, and responsive design**. Master's degree in Computer Science from the University of Wollongong. Actively seeking **React Native, Mobile, or Frontend Developer** roles in Australia.

## TECHNICAL SKILLS

---

### Mobile & Frontend

- React Native, React.js, Next.js
- JavaScript (ES6+), TypeScript
- HTML5, CSS3, Tailwind CSS

### State & UI

- React Hooks, Context API, Redux
- Responsive Design, Accessibility
- Figma to pixel-perfect UI implementation

### Backend & APIs

- Node.js, Express.js
- REST APIs, GraphQL
- Strapi CMS

### Tools & DevOps

- Git, GitHub, GitHub Actions
- Docker, Postman, VS Code

### Testing & Performance

- Jest, Lighthouse
- Performance profiling & optimisation

## PROFESSIONAL EXPERIENCE

---

### Software Engineer — *Capital Numbers*

**Jun 2022 – Jan 2023 | Hyderabad, India**

- Developed and maintained **cross-platform mobile applications** using **React Native**, delivering stable releases for both Android and iOS.
- Integrated **REST and GraphQL APIs**, improving data reliability and reducing API-related crashes.

- Converted **Figma designs into pixel-perfect, responsive UI components**, ensuring consistent UX across devices.
- Optimised component rendering and application logic.
- Collaborated in **Agile teams**, using Git, GitHub, and CI/CD pipelines for smooth deployments.

## Software Engineer — ClassSpace

May 2020 – Jun 2022 | India

- Built frontend features for an **e-learning SaaS platform** using **React.js, React Native**.
- Designed and implemented **reusable UI components**, improving development speed and code maintainability.
- Integrated **Strapi CMS** for dynamic content management and connected analytics for user insights.
- Worked closely with backend and product teams in **Agile sprints**, contributing to regular releases.
- Assisted in deployments and ongoing improvements to application performance and usability.

## PROJECTS

---

### Dr. Agarwal's Hospital App

React Native

- Developed a mobile application to support **day-to-day hospital operations**, including internal workflows and data access.
- Focused on performance, stability, and responsive UI for real-world operational use.

### VizChat

React Native, Express.js, PostgreSQL, Docker

 [www.vizchat.vinays.dev](http://www.vizchat.vinays.dev)

- Built a **full-stack real-time chat application** with authentication, messaging, and backend APIs.
- Containerised services using Docker and deployed a scalable backend.

### Digital Billboard Platform (*Ongoing – Startup Project*)

React, Node.js, Payments, Scheduling

- Developing an end-to-end **digital billboard booking platform** for an India-based startup.
- Implementing **booking logic, scheduling, and payment workflows** across frontend and backend.

### Portfolio Website

NextJs, Tailwind CSS

 [www.vinays.dev](http://www.vinays.dev)

- Designed and built a personal portfolio showcasing projects and technical skills.
- Used Google stitch (AI based) for UI/UX.

## EDUCATION

---

**Master of Computer Science** — University of Wollongong

Double Major in Software Engineering and AI/ML

2023 – 2024

## **Bachelor of Technology (Computer Science) — SNIST, India**

2014 – 2018

### **AVAILABILITY AND WORKING RIGHTS**

---

- Full-time work rights (Post-Study Work Visa, valid until 2028) + 1 year extension for regional study (can be applied later)
- Open to relocation across Australia
- Available to start immediately.
